Timeline Residential Retreat Testimonials

I have taken six programs and this is one of the very best.

My experience in Timeline was an order of magnitude beyond every other TMI program I've ever done. I recognize that I was able to get what I did from Timeline because of what I'd learned in other programs I've done in the last two years. They laid the conduit and made the connections, installed the junction boxes. Then Timeline flipped the switch.

This workshop provided me with tools to help me change some of my old behavior habits, no matter where or when I created those patterns.

A really wonderful, fantastic, awesome program. It gave me insight into current problems and the ability to clear these issues through time.
—*Gregory Brown*

The Timeline program was filled with practical tools for life transformation. The experience was far beyond the descriptions of it! One of the experiences provided was a session in the booth with a L.I.F.E. biofeedback session focused on a past life exploration. The live interaction of the session created a narrative account which brought a depth to the material often missed during more subtle flashes of imagery. That narrative creation made the experience more 'alive' and vibrant and is one of many aspects of the week that remains salient in my awareness now.

This course is about your own timeline, especially the 'recent' past, helping self-healing and self-understanding, enabling a deeper understanding of current and recent past life experiences.

I had visuals, rote downloads, empathic knowing and strong feelings from Day One through the end of the course. The L.I.F.E. system was a great tool that took me on an exciting trip. This tool helped me in 'knowing' and 'feeling' what was happening in my journeys.

“Timeline gave me tools to work on healing the dysfunctions that were created in past lives, as well as in the past of this life. It has taught me to be more gentle and accepting of my imperfections. I have been able to heal what I can of the past and accept what I cannot yet forgive. These tools I have brought home with me with hope to cope with the future. Many thanks to Charleene Nicely and Lee Stone for my healing experience.”
